Sinan Özaydın

PhD, MSc, BS

BIO

I am an Earth scientist specialising in magnetotellurics. My research targets how the electrical conductivity distribution of the lithospheric mantle, as it is acquired from magnetotelluric models, can be related to tectonic and magmatic processes. I try to do this via quantified interpretations, combining the knowledge from geochemistry, petrology and magnetotellurics.

Employment

Postdoctoral Research Fellow at Macquarie University *January 2022 -*

Research Associate at University of South Australia *September - December 2021*

Education

PhD in Geophysics at Macquarie University *2018 - 2021*
Sydney, Australia
Thesis Title: *"Three-dimensional magnetotelluric constraints on compositional variations of the Southern African mantle."*
Supervisors: Kate Selway (Primary), William L. Griffin (Associate)

MSc in Geophysics at Boğaziçi University *2015 - 2017*
Istanbul, Turkey
Thesis Title: *"The role of crustal fluids in tectonics of north-central Turkey, inferred from three-dimensional magnetotellurics."*
Supervisors: S. Bülent Tank

BS. in Geophysical Engineering at Istanbul Technical University *2009-2015*
Istanbul, Turkey

Research Interests

Magnetotellurics, geophysical inversion, geochemistry, quantified interpretations of mantle electrical conductivities.

Reviewed Manuscripts in

Geophysical Journal International, Gondwana Research, Journal of Geophysical Research: Solid Earth, Minerals

Research Projects

Compositional constraints on the evolution of Tanzanian Craton and surrounding rift margins using magnetotelluric modelling. *2022 - 2023*
Researcher

Unveiling the relationship between kimberlites and electrical conductivity signatures of the mantle. *2021 - 2022*
Researcher

Improving the quantitative interpretations of magnetotelluric models of the cratonic mantle. *2018 - 2022*
Researcher / PhD Candidate

Summit Station Magnetotellurics (SUMMAT) *2018*
Researcher

Continental Dynamics / Central Anatolian Tectonics (CD-CAT) *2014-2018*
Intern / Researcher

Imaging the Shallow Crustal Structure of Ganos Fault by Magnetotellurics *2015-2017*
Researcher

Conference Proceedings (1^{st} Author Only)

Özaydın, Sinan, Selway, Kate "Laboratory results coded in MATE.", Oral Presentation (Invited Speaker), *EM-Community Webinar Series*, Virtual Conference, International.

Özaydın, Sinan, Selway, Kate, Griffin, William L. (2021). "Composition and evolution of the southern African lithosphere from combined xenocryst and magnetotelluric data", Oral Presentation, *AESC2021*, Virtual Conference, Australia.

Özaydın, Sinan, Selway, Kate (2020). "Interpretation of conductivity variations in magnetotelluric models of cratonic lithospheric mantle with the new open-source software MATE.", Oral Presentation, *AGU2020*, Virtual Conference, USA.

Özaydın, Sinan, Selway, Kate (2019). "Utilising 3-D magnetotelluric models of southern African mantle to constrain hydrogen content and compositional variations.", Oral Presentation, *AEGC2019*, Perth, Australia.

Özaydın, Sinan, Selway, Kate (2018). "Measuring the hydrogen content variations in Southern African mantle.", Poster Presentation, *EMIW2018*, Helsingör, Denmark.

Özaydın, Sinan, Tank, S. Bülent, Karaş, Mustafa, Sandvol, Eric (2017). "Resolving the deep electrical resistivity structure at Central Pontides, Northern Turkey by three-dimensional magnetotelluric modeling.", Poster Presentation, *EGU2017*, Vienna, Austria.

Awards & Achievements

Australian Research Council PhD research scholarship 2018-2021
TUBITAK research scholarship 2016-2017

Scientific Software

MATE - Creator -https://github.com/sinanozaydin/MATE
A software to make quantified interpretations of the magnetotelluric models of the mantle. Published in G-cubed.

Thermobar - Contributor - https://github.com/PennyWieser/Thermobar
A python library to handle thermobarometric calculations of earth materials.

Computer Skills

Languages: Python, Matlab, Fortran, Bash, LaTeX
MT Inversion: ModEM, jif3D, WS3DINV, MARE2DEM, rjmcmcmt
MT Processing: EMTF, BIRRP
Geoscience Software: QGIS, GMT, PerpleX
Visualisation: Paraview, Inkscape, Gimp
Operating systems: Linux proficient

Fieldwork Experience

Greenland Summit Station Fieldwork *2018*
Installation of broad-band and long-period MT stations in Greenland ice sheet.

CD-CAT Fieldwork in Central Anatolia *2014-2018*
Installation of nearly 150 broad-band and long-period MT stations in Central Anatolia.

Other Interests

Philosophy (Philosophy and history of science, differential ontology & process philosophy, post-structuralism), Music production (Multi-instrumentalist), Cinema.
